(54) Title: INTERNET BROKERING SERVICE BASED UPON INDIVIDUAL HEALTH PROFILES

(57) **Abstract:** Methods, apparatus and computer-readable media are disclosed for gathering medical, health, and wellness related information for a consumer based on a health profile of the consumer. Health and medical information for a consumer is gathered based on a health profile of the consumer. A health profile associated with a consumer is accessed and maintained by a service provider. The health profile has numerous "events" reflecting health, medical, and wellness characteristics of the consumer. Information relevant to the consumer based on the health profile is retrieved from numerous external sources, such as Web servers and library files, at certain predetermined time intervals or on demand by the consumer. Relevant information is displayed in a user interface in a manner that allows efficient evaluation of the information by the consumer. In addition, the health and medical profile of the consumer can be modified through the user interface.

* Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
